Mysterious:- G.E.C.; U.S.A.; other Foreign Certificates, etc.

DATE: 1st Year ARTS   1964-65.

Failures: The total number of failures was 371/1594 students,
or 23%. This is very high. Even the Arts numbers are high. Of
the 742 Arts students who wrote final examinations, 141 failed
to be promoted, that is 19.00%.

In   Commerce 24.8%
     Engr 11.3%
     Science 28.00%

Here are the percentages for each year:

First Year: overall failure: 31.00%
                                Arts .... 27.00% of 314 students
                                Commerce ..... 37.00% of 173   "
                                Engr .... 06.00% of 31   "
                                Science ...... 35.00% of 164   "

Second Year: overall failure: 24.00%
                                Arts .... 16.00% of 217   "
                                Commerce ..... 37.00% of 87   "
                                Engr .... 28.00% of 54   "
                                Science ...... 31.00% of 91   "

Third Year: overall failure: 17.00%
                                Arts .... 16.00% of 115   "
                                Commerce ..... 16.00% of 61   "
                                Engr .... 06.00% of 18   "
                                Science ...... 24.00% of 59   "

Fourth Year: overall failure: 04.5%
                                Arts .... 03.00% of 96   "
                                Commerce ..... 09.00% of 53   "
                                Engr .... 05.00% of 19   "
                                Science ...... 02.00% of 42   "

DATA: 1st Year ARTS 1964-65

1.   re Supplemental Examinations

Permission was granted for 156 Supps.

105 of these had been from 35-49

51   "   "   "   0-34

Of these 156 A) passed: 80 or 51.3%

60 of 105: or 57%

20 of 60   or 39.3%

that is to say: a student failing 35-49 has a

60-40 chance of passing the supp.

a student failing 0-34 has a

40-60 chance.

B) Took exam and failed it: 47/156 or 30.2%

30/105: 28.6%

17/51 : 33.4%

C) Did not write: 29/156 or 18.5%

15/105: 14.3%

14/51: 27.5%

2.   re Recorded Absences

71 "overcuts" were recorded

19 were against marks above 50 or 26.8%
            (2 above 65)

52 "   "   "   below 50 or 73.2%

32 of which were   "   35 i.e. 45%

DATA: 1st Year ARTS 1964-65.

3. re Overcut Repeaters: (15)

     3   passed the overcut course   20%

     6   failed (35-49)   40%

     6   failed (θ -34)   40%

        i.e. 80% failed

SUMMARY:

    Being overcut means

        for all students: a 3-1 chance of failing course

        for repeaters: a 4-1   "   "   "   "

A STUDY OF HOW MANY FRESHMEN GRADUATE
IN FOUR YEARS

	ARTS	COMMERCE	SCIENCE	TOTAL
1960-61 Freshmen Enrolment.	105	150	121	376
*Number Graduating in 1963-64.	82	45	42	169
Percentage graduating in 4 years.	78%	30%	35%	45%
1961-62 Freshmen Enrolment.	136	141	140	417
*Number Graduating in 1964-65.	82	45	48	175
Percentage graduating in 4 years.	60%	32%	34%	42%
1962-63 Freshmen Enrolment.	187	140	173	500
*Number Graduating in 1965-66.	95	46	53	194
Percentage graduating in 4 years.	51%	33%	31%	39%

* Members of the graduating class who entered with advanced standing are excluded.
The number of advanced standing students in the 1965-66 graduating class is
empirical.

The numbers in the 1964-65 and 1963-64 graduating classes were estimated on the
basis of the 1965-66 ratio.

Note: The number graduating in 1965-66 is projected.

A STUDY OF HOW MANY FRESHMEN GRADUATE IN 4 YEARS

	ARTS	COMMERCE	ENGINEERING	SCIENCE	TOTAL
1963-64 Freshmen Enrolment	208	139	106	114	567
*1965-66 Third Year Enrolment	160	52	28	58	298

A STUDY OF HOW MANY FRESHMEN GRADUATE
IN FOUR YEARS

	ARTS	COMMERCE	SCIENCE	TOTAL
1960-61 Freshmen Enrolment.	105	150	121	376
*Number Graduating in 1963-64.	82	45	42	169
Percentage graduating in 4 years.	78%	30%	35%	45%
1961-62 Freshmen Enrolment.	136	141	140	417
*Number Graduating in 1964-65.	82	45	48	175
Percentage graduating in 4 years.	60%	32%	34%	42%
1962-63 Freshmen Enrolment.	187	140	173	500
*Number Graduating in 1965-66.	95	46	53	194
Percentage graduating in 4 years.	51%	33%	31%	39%

'64 (beside 1963-64 row)
'65' (beside 1964-65 row)
'66 (beside 1965-66 row)

* Members of the graduating class who entered with advanced standing are excluded. The number of advanced standing students in the 1965-66 graduating class is empirical.

The numbers in the 1964-65 and 1963-64 graduating classes were estimated on the basis of the 1965-66 ratio.

Note: The number graduating in 1965-66 is projected.

J. Murphy

November 25, 1965.

DATE: 1st Year ARTS 1964-65.

Failures: The total number of failures was 371/1594 students,
or 23%. This is very high. Even the Arts numbers are high. Of
the 742 Arts students who wrote final examinations, 141 failed
to be promoted, that is 19.00%.

                        In Commerce 24.8%
                            Engr 11.3%
                            Science 28.00%

        Here are the percentages for each year:

First Year: overall failure: 31.00%
                                Arts .... 27.00% of 314 students
                                Commerce ..... 37.00% of 173   "
                                Engr .... 06.00% of 31   "
                                Science ...... 35.00% of 164   "

Second Year: overall failure: 24.00%
                                Arts .... 16.00% of 217   "
                                Commerce ..... 37.00% of 87   "
                                Engr .... 28.00% of 54   "
                                Science ...... 31.00% of 91   "

Third Year: overall failure: 17.00%
                                Arts .... 16.00% of 115   "
                                Commerce ..... 16.00% of 61   "
                                Engr .... 06.00% of 18   "
                                Science ...... 24.00% of 59   "

Fourth Year: overall failure: 04.5%
                                Arts .... 03.00% of 96   "
                                Commerce ..... 09.00% of 53   "
                                Engr .... 05.00% of 19   "
                                Science ...... 02.00% of 42   "

DATA: 1st Year ARTS 1964-65

1. re Supplemental Examinations

Permission was granted for 156 Supps.

105 of these had been from 35-49

51   "   "   "   0-34

Of these 156 A) passed: 80 or 51.3%

60 of 105: or 57%

20 of 60   or 39.3%

that is to say: a student failing 35-49 has a

60-40 chance of passing the supp.

a student failing 0-34 has a

40-60 chance.

B) Took exam and failed it: 47/156 or 30.2%

30/105: 28.6%

17/51 : 33.4%

C) Did not write: 29/156 or 18.5%

15/105: 14.3%

14/51: 27.5%

2. re Recorded Absences

71 "overcuts" were recorded

19 were against marks above 50 or 26.8%
        (2 above 65)

52 "   "   "   below 50 or 73.2%

32 of which were   "   35 i.e. 45%

DATA: 1st Year ARTS 1964-65.

3. re Overcut Repeaters: (15)

      3   passed the overcut course   20%

      6   failed (35-49)   40%

      6   failed (θ -34)   40%

         i.e. 80% failed

SUMMARY:

     Being overcut means

          for all students: a 3-1 chance of failing course

          for repeaters: a 4-1   "   "   "   "

A STUDY OF HOW MANY FRESHMEN GRADUATE
IN FOUR YEARS

ESTIMATE OF FUTURE CLASSROOM SPACE REQUIREMENTS

In 1965-66 we accommodated roughly 2250 students using 30 classrooms for 45 hours a week. We operated at 70% of classroom capacity using 957 of the 1350 classroom hours available. Our use of available classroom hours was 8% greater than the 62% used by the University of Guelph in planning its future classroom requirements.*

If we use both 70% and 62% of classroom capacity as norms for projecting classroom needs, the following number of classrooms will be needed at the various levels of student population.

Student Population	Number of Classrooms Required	
	70% Efficiency	62% Efficiency
2250	30	32 (approx.)
2850	38	41 "
3000	40	43 "
3150	42	45 "
3300	44	47 "
3450	46	49 "
3600	48	51 "
3750	50	54 "
3900	52	56 "
4050	54	58 "

In determining the number of classrooms required the assumption is that the number of students in existing classes and the number of courses offered will remain constant in the future.

At 70% efficiency, complaints and inflexibility are at a maximum. On the basis of experience gained in meeting space demands for 1965-66, we strongly recommend that 62% of classroom capacity be used as the norm when projecting classroom space needs.

Since the Registrar's Office has not been responsible for scheduling the use of language and scientific laboratories, drafting rooms, etc., we have not attempted to forecast future requirements for such rooms.

QUESTIONNAIRE

The following questions refer to a seven day week.

"Contact hours" apply to hours of instruction in lecture, laboratory or seminar.

1) Total number of lecture (and seminar hours) per week........ ☐

2) Total number of laboratory hours per week................... ☐

3) Total number of hours of private study per week

   ("home-work"; all non-contact hours devoted to

   academic work at the College or at home)................ ☐

4) Sum total of hours spent on academic work per week [1) + 2) + 3)] ☐

How much time do you spend:

5) -- in study on week-day evenings PER DAY................... ☐

6) -- in study on week-ends (total Sat. and Sun.)............. ☐

7) -- in preparation for laboratory sessions per week......... ☐

8) -- on post-laboratory study (reports, etc.) per week....... ☐

9) -- in study on "Arts" subjects (humanities) per week....... ☐

10) -- on travelling to and from school PER DAY................ ☐

11) -- on sports and athletics per week....................... ☐

12) -- How many hours sleep do you get per night.............. ☐

13) Do you usually study at Loyola during "free" periods   yes ☐   no ☐

14) Do you have a regular paying job during term   yes ☐   no ☐

15) Relative to the available time you have for private

    study, do you believe you have too many contact hours   yes ☐   no ☐

16) Do you usually follow an organized plan of study   yes ☐   no ☐
